

Installation guide

[LUSA-509] Monsoon Evo Diameter Extender

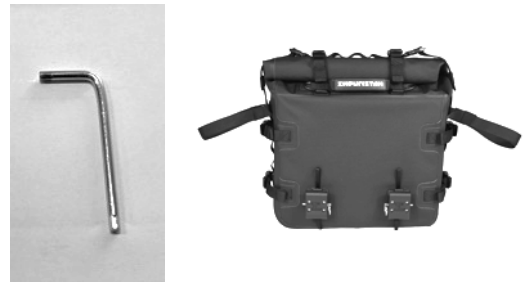

PACKAGE CONTENT

- 4x Monsoon Evo Diameter Extender Piece

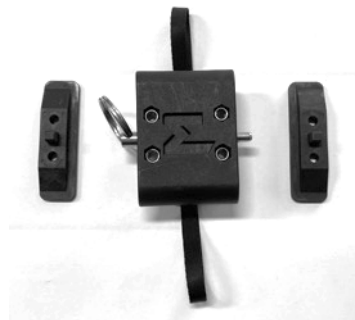

ALSO NEEDED

- Allen key size 3
- [LUSA-008] Monsoon Evo

DISMANTLING THE BRACKETS ON YOUR MONSOON BAG AND FITTING THE DIAMETER EXTENDER

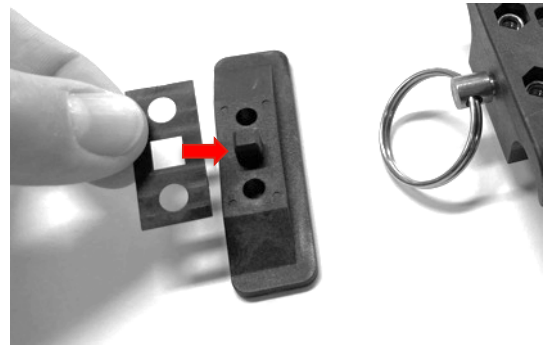

1. Leave the locking pins inside the bracket.
2. Remove the 4 screws on both mounting brackets from the inside of the bag and remove the bracket and screws. Make sure the self-locking nuts do not fall out of the bracket when removing the brackets.
3. You can leave the counter plate and the screws in the bag.
4. Remove the 2 small parts and place on a table.

ENDURISTAN

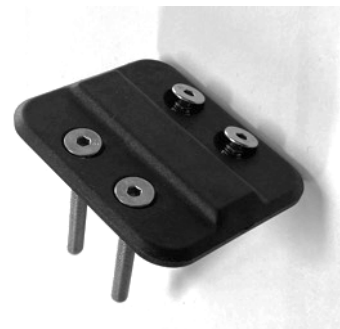

WHEREVER YOU RIDE

5. Place the two diameter extender pieces on the two separated small parts and re-assemble the bracket.
6. Repeat step 1-5 for the other bracket.

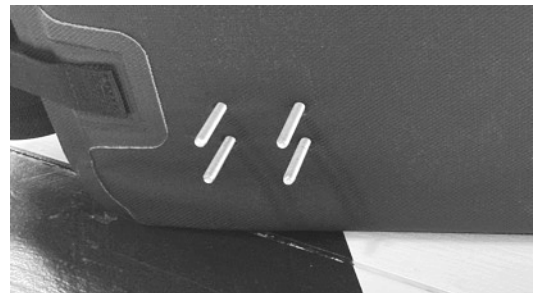

(Step 7 - 9 are only applicable if you have removed the screws and the counter plate from the bag)

7. Take 4 screws and put them into the counter plate.

8. Put the screws with the counter plate from the inside through the bag. Make sure the reinforced middle part is placed vertically.
9. Repeat step 7 and 8 for the other counter plate.

10. Place the mounting bracket on the screws. Make sure the pulling strap is not pinched between the plastic and the bag. Make sure the Enduristan Logo has the correct orientation (longer stroke of the "E" facing down).
11. Tighten all the screws from the inside of the bag.
12. Repeat step 10 and 11 for the other bracket.
